Full support for ex-servicemen

The Department of Ex-Servicemen Welfare has allotted ₹ 320 crore to Armed Forces Flag Day Fund to clear all backlog of pending applications for welfare schemes of ex-servicemen and their families

AAT News Service

THE Ministry of Defence has launched three new initiatives for the welfare of ex-servicemen and their families on the occasion of Armed Forces Veterans' Day celebrated every year on January 14. The Department of Ex-Servicemen Welfare has allotted ₹ 320 crore to Armed Forces Flag Day Fund (AFFDF) to clear all backlog of pending applications for welfare schemes, especially education and marriage grants for widows/dependent children of the veterans. This will benefit over one lakh wards/widows of ex-servicemen.

The AFFDF, administered by Kendriya Sainik Board, is being utilised to fund a number of welfare schemes for ex-servicemen/widows/dependents. These welfare schemes aim to provide financial assistance to ex-servicemen fraternity/widows/dependents and maintain various facilities (Cheshire Homes/Paraplegic Homes/War Memorial Hostels) meant for ex-servicemen and their dependents.

In another major achievement, the Directorate-General of Resettlement issued around 7,900 job letters to freshly-retired ex-servicemen in government sector/PSUs/banks and private sector during April-December, 2021, out of re-employment given to over 22,000 during the same period. The aim is to facilitate re-employment of ex-servicemen in the corporate sector and provide jobs through schemes for self-employment.

The Directorate-General of Resettlement is an attached office of ministry which facilitates resettlement of ex-servicemen by organising pre- and post-retirement training, re-employment and self-employment. Nearly 60,000 armed forces personnel retire or are released from active service every year, most of them being in the age bracket of 35-45 years and need a second career to support their families.

The department also launched a dedicated Raksha Pension Shikayat Nivaran portal <https://rakshapension.desw.gov.in> to speedily redress pension grievances, including family pension of ex-servicemen and their dependents.

Through the portal, an SMS and e-mail will be forwarded to the applicants on their registered mobile number and e-mail, intimating confirmation of registration of grievance and for tracking its status. Applicants can also provide feedback for the purpose of improving quality of redressal of grievances.

Water connection in cantonments

AAT News Service

BASED on the Central government's concept of 'Minimum Government and Maximum Governance', cantonment residents will not require any manual intervention in the process of sanction of water connection. The Ministry of Defence has launched geographical information systems (GIS)-based automatic water supply system to automate granting of water connection to the residents in a transparent manner.

The system, under eChhawani portal <https://echhawani.gov.in>, allows citizens to identify the location of water supply connection on cantonment map. The system automatically determines the nearest water pipeline and checks the feasibility of providing connection from water pipeline.

The distance and the total amount payable are determined by the system based on the location of the household. The applicant can make instant payment of water connection charges by using linked payment gateway.

This system automatically generates water connection sanction letter which can be downloaded by the applicant, thereby providing seamless end-to-end delivery of service without human intervention. The process facilitates sanction of water connection to cantonment residents in the shortest possible span of time with ease. This is first-of-its-kind municipal application in the country providing 'ease of living' to the residents.

The cantonment residents can also book community hall through the eChhawani portal without any physical application and intervention of cantonment officials. The residents can book hall by selecting the available date and generating the booking confirmation letter by making online payment.

Elimination of official intervention ensures that the hall is booked on 'first-come first-served' basis by residents themselves avoiding any delay or discretion.

Ship repair facility construction in Guwahati to start from May

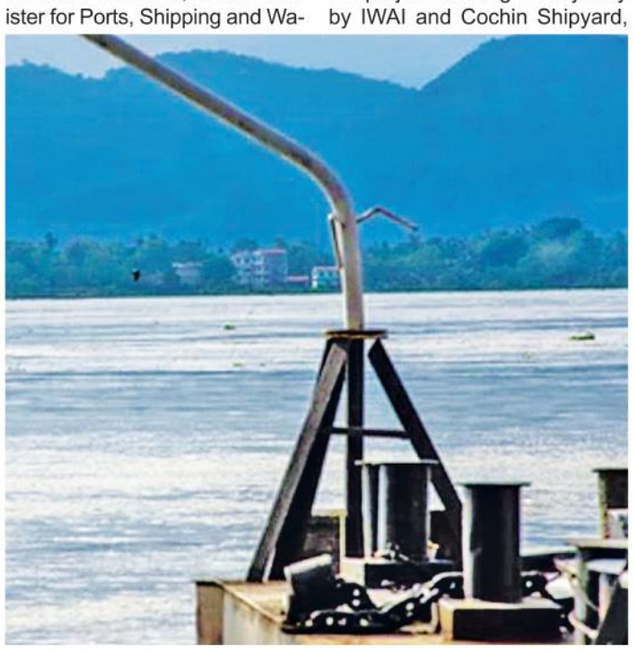
AAT News Service

TECHNICAL work at the Pandu ship repair facility in Guwahati is being completed as the construction of the facility is slated to commence from May 2022. The project is aimed to be completed within two years, ie by 2024, said Sarbananda Sonowal, Union Minister for Ports, Shipping and Waterways.

Reviewing the progress on the facility, along with top officials of Inland Waterways Authority of India (IWAI), Cochin Shipyard and IIT Madras, the minister said the facility is going to be a major contributor to the economic resurgence of the region. The design and implementation of the project is being done jointly by IWAI and Cochin Shipyard, and the technical support is being provided by IIT Madras. The facility – also referred as Slipway – is going to be developed on 3.67 acres of land which is provided by the Assam government.

The future progress of the North-eastern region lies in the development of the waterways. The work has already started on the National Waterway 2 – the Brahmaputra – as well as National Waterway 6 – the Barak, which will help in facilitating cargo traffic, passenger traffic as well as tourist jetties for economic growth of the region. In order to achieve a motor able waterway, dredging of both the rivers are to be done at critical junctures so that adequate depth is achieved for cargo ship movement, said Mr Sonowal.

"Our rich history, economic prosperity can be reinvigorated by developing our rivers as waterways for smooth and swift movement of cargo and passengers. This will not only boost the export sector of the entire North-eastern region, but will also become a major multiplier in the employment generation in the region," he added.



UGC launches Training of Master's Trainers Programme

Community engagement and social responsibility in higher education are emerging as new fields of professional competence internationally

AAT News Service

THE National Education Policy (NEP), 2020 has presented a transformative framework for higher education in the country. Community engagement and social responsibility in higher education are emerging as new fields of professional competence internationally. Hence, the University Grants Commission (UGC) as a Subject Expert Group (SEG) has launched the Training of Master's Trainers Programme in community-based participatory research under Unnat Bharat Abhiyan (UBA) 2.0, said Rajnish Jain, Secretary, UGC.

The UGC has prepared the National Curriculum Framework and Guidelines for 'Fostering social responsibility and community engagement in higher education institutions (HEIs) in India', which is also one of the verticals of UGC's quality mandate, ie social and industry connect for every HEI, said Mr Jain.

There is a need to bring individuals from the cross-sections of the society under the ambit of UBA 2.0. The UGC has set up this committee for analysing the curriculum and capacity-building needs of HEIs. The importance of NEP 2020 is to focus on producing global citizens along with knowledge and skills. Students cannot be global citizens if they do not engage with the community. If the community is not part of development, development cannot be sustained, said K K Aggarwal, Chairman, National Board of Accreditation (NBA) & UGC-SEG on policy framework.

The NEP 2020's mandate has been synchronised with the UBA 2.0 objectives and the UGC policy framework through this programme. The HEIs need to link academic curriculums to practical reality and daily challenges that communities face. The hope is that this new programme will give new meaning to the objectives of the NEP 2020 for changing lives and building connects with society, said Virendra K Vijay, National Co-ordinator UBA, IIT Delhi.

"We have identified seven regional centres that will provide dynamism and leadership for implementation of the programme. The centres are Dayalbagh Educational Institute (Uttar Pradesh); Gandhigram Rural Institute (Tamil Nadu); Central University of Odisha (Odisha); Rashtrasant Tukadoji Maharaj Nagpur University (Maharashtra); Tezpur University (Assam); National Law Institute University (Madhya Pradesh); and Kurukshetra University (Haryana)," said Rajesh Tandon, a member of UGC Expert Group and Co-Chair, UNESCO on Community Based Research and Social Responsibility in Higher Education and Founder President, Society for Participatory Research in Asia.

Operational specifications and functions of the regional centres will be to recruit master trainers, organise batches of trainers for training in community-based participatory research and support them through periodically-updated locally-relevant learning materials, said Mr Tandon.
