JOB OPPORTUNITIES FOR KINGDOM OF SAUDI ARABIA

Our client is one of the world's largest fully integrated energy enterprises & one of biggest Oil and Gas Exploration & Production, Refining & Distribution Company in Saudi Arabia. It has domestic and international joint and equity ventures in refining and marketing. The professional rewards are amazing, but so too are the lifestyle and benefits. They can offer professionals from diverse backgrounds and specialties & build a solid, secure future - not to mention extensive international exposure and the opportunity to see your ideas become reality. Work at the forefront of the industry and see how your career evolves with invested time and effort. It's a chance to make a huge impact both on the local economy and on a global scale. They now urgently seek to hire the below professionals:

Digital Plant Solution Architect JRE24722

Bachelor's degree in Computer Science, Chemical, Electrical or Industrial Engineering. Advanced education / degree is preferred.
 Fifteen (15+) years of experience, as a solution architect in refining or gas plants with at least 10 year experience in designing, implementing and commissioning of digital plant solutions for refining or gas plants.

Digital Architect JRE24669

Bachelor's degree in computer science, information technology or engineering. Master degree is preferred. TOGAF or any other relevant Architecture certification desired.
 Minimum 7 years of experience in solutions development, enterprise architecture, application development, middleware, database management or cloud design.
 Demonstrate solid understanding of the latest digital technologies including Artificial Intelligence, Blockchain, IoT, data science and analytics, cloud computing, integration, DR technologies (national, timesheet) etc.
 Experience in designing and deploying solutions in cloud-native enterprise applications in public, private and hybrid cloud models (AWS, Azure, GCP, OpenShift).

Instructional Designer JRE24680

Bachelor Degree in Instructional Design, educational technology or the equivalent. A Master degree is preferred.
 Minimum of 8 years experience. You should have proven working experience in instructional design and with instructional technology.
 Thorough knowledge of learning theories and instructional design models is essential. Should be able to demonstrate lesson and curriculum planning skills.
 Solid knowledge of course development software and at least one Learning Management System. Visual design skills (Demosweaver, Photoshop, Illustrator) and ability to storyboard. Should also be able to demonstrate the ability to write effective copy, instructional text, audio scripts/video scripts.

Innovation Catalyst JRE24676

Bachelor's in Business, Communications, Design Thinking, Human Centered Design, Innovation, Sociology, Psychology, Industrial Design, or a like degree.
 A Master degree is preferred.
 Minimum of 10 years facilitation and education experience with multiple innovation practices, including design thinking and design sprints.
 Computer Skills in Adobe Creative Cloud suite are preferable.
 Proven experience as a design innovation educator. Possibilities include creating courses and supporting materials or teaching using existing frameworks.
 Experience assessing projects and planning for how to best approach challenge.

Thermal Power Plant Business Developer JRE24718

Bachelor's degree in Electrical Engineering. A Masters degree is preferred.
 Must have Professional Engineer certification such as chartered with recognized Engineering Institution.
 Should have a minimum of 10 years experience, demonstrated by suitable references primarily in the area of advanced cable design, projects and operation.
 Should have technical design level insight in submarine cable designs of minimum 15KV and higher with breadth experience of fault-finding techniques, splicing methods suitable to deep and shallow water, cabling handling requirements, such as trans pooling techniques and best practice and constraints.

Senior Mechanical Inspector JRE24716

Bachelor degree in Engineering.
 Minimum of 15 years in the refining and/or O&G industry, specifically in mechanical inspection, with at least 10 years field experience working on plants major turnaround, field troubleshooting and inspection.
 Should have two of the following certificates: API-610, API-570 and API-653.
 Must have a thorough knowledge of best engineering practices, solid industry codes and standards background.

Senior Electrical Inspector JRE24714

Bachelor degree in Electrical Engineering. A Masters degree is preferred. Minimum of 15 years of relevant industrial experience with at least 8 of those years in the proposed specific inspection specialty. Should be able to demonstrate a thorough working knowledge of National Electric Code / NFPA 70, IEC or equivalent standards.

Should also be able to demonstrate a thorough working knowledge of electrical installations, preventive predictive, performance maintenance, including materials, methods, specifications, and hazardous location classification.
 General knowledge of ISO 9001 quality requirements as well as international standards, as applicable to your proposed discipline, is required.
 ISO 9001:2008/2015, SIFRA 70 Certified or equivalent will be preferable.

Senior Financial Analyst JRE24715

Bachelor degree in Economics or Finance from a recognized and approved program. Masters in Accounting or Statistics desirable. A Master's Degree is preferred.
 At least 12 years of work experience in multinational business or international finance. Other requirements are:
 Should possess a strong background in financial management and analysis, commercial law, taxation, investments, banking and foreign exchange.
 Professional experience with computerized financial systems is desirable.

Power Systems Regulatory Analyst JRE24690

Bachelor degree in Electrical Engineering from a recognized and approved program. A Master's Degree or professional registration (P.E., CEng or equivalent) in the field of power systems is desirable.
 Minimum of 5 years' experience in electricity regulations, electricity markets and operation, operation of transmission and distribution networks, or grid code compliance.
 Should possess a strong knowledge of engineering practices, economic principles, analytic and research skills.

Planning and Performance Management Analyst JRE24685

Bachelor's degree in Computer Science, Chemical, Electrical or Industrial Engineering. Advanced education / degree is preferred.

Financial Modeling & Transaction Analyst JRE24672

Bachelor degree in Business (Finance or Accounting) or Electrical Engineering with MBA Degree.
 Minimum 10 years of work experience in valuation, transactions and modeling.
 Should possess a strong background in financial models, valuation and project financing report and book ends.

Business Development Analyst JRE24662

Bachelor Degree in Engineering (Electrical/Electronics). Master's Degree is desirable.
 Minimum of 7 years work experience in renewables, business development and transactions. Project management skills are preferred.

Renewables Strategy & Market Specialist JRE24710

Bachelor's Degree in Engineering or Business & Management. MSc Degree is preferred.
 Minimum of 12 years' experience in renewables development, strategy development & execution.
 Should possess a strong background in market research and brief publishing.

Renewable Transaction Specialist JRE24709

Bachelor's Degree in Engineering (Electrical or Renewable) or in Business (Finance or Management). MSc Degree is preferable.
 Minimum of 12 years' experience in business development and transactions.
 Strong background in renewable project development, deal structuring, stakeholder management, financial modeling, bankability and valuation is necessary.
 Project management skills are preferred.

Renewable Power Engineering Specialist JRE24708

(Solar PV-Projects)
 Bachelor Degree in Engineering, Electrical or Renewable is preferred. A Masters degree is desirable.
 Minimum of 10 years' EPC experience and project management experience in Solar PV and/or Concentrator solar. Three years' experience in energy storage technologies is required. PMP certification is also a requirement.
 Should have a strong technical concentration in Solar PV project infrastructure construction ranging from generation, transmission, system design and feasibility studies, grid interconnection and reliability or distribution either with utility or end-users.

CEM certification and / or Professional Engineering (PE) certification is a plus.

Power Transformer Specialist - Medium Voltage, High Voltage and Extra High Voltage Transformers JRE24692

Bachelor degree in Electrical Engineering. A Masters degree is preferred.
 Must have a Professional Engineer certification such as chartered with a recognized Engineering Institution.
 Minimum of 10 years of power transformer operation and maintenance experience demonstrated by suitable references primarily related to power transformer design.
 Must demonstrate direct experience as a transformer specialist, such as contribution in international conferences as transformer specialist or employee of leading power transformer manufacturer.

Gas Insulated Switchgear Specialist JRE24673

Bachelor degree in Electrical Engineering. A Masters degree is preferred.
 Minimum of 10 years experience primarily in the area of GIS equipment specification and be able to demonstrate contribution in international conferences as GIS specialist or employment by leading GIS manufacturer.
 Must have Professional Engineer certification such as chartered or PE.
 Must have technical design level insight in GIS Technology of minimum 66kV and higher. Be able to demonstrate an active role during GIS commissioning as part of a projects or as OEM.

Maintenance Planner JRE24683

Bachelor Degree in Engineering is preferred.
 Minimum of 11 years maintenance experience, including at least three years devoted to planning of maintenance jobs.
 Should have the ability to identify all materials, services, equipment's, and special preparations required for each maintenance job.
 Knowledge of SAP is a must (SAP PM AND MM MODULE).

Maintenance Planner JRE24682

Bachelor of Engineering Degree in Equipment Maintenance / Electrical field.
 Minimum of 11 years' experience in various fields.
 Must hold a valid Saudi Driver's License.

Data Scientist - Time Series Forecasting Expert JRE24668

Master's degree in data science, computer science, computer vision, applied mathematics or a related field from a recognized and approved program. A PhD degree is preferred.
 Must have at least 5 years of experience in building time series forecasting models. Having very strong expertise in data collection, cleaning, preprocessing, and wrangling is a requirement.
 Must be fluent in either R or Python, preferably both, and familiarity with golang is a plus.
 Proficiency in visualization tools and packages; and in communicating data science topics to non-technical audience is a requirement.
 Experience in time series forecasting models and in using technologies like LSTMs, Prophet, and time series analysis is a requirement.

Data Scientist - NLP Expert JRE24666

Master's degree in data science, computer science, computer vision, applied mathematics or a related field from a recognized and approved program. A PhD degree is preferred.
 Must have at least 5 years of experience with hands-on data science, NLP, computer vision, and / or machine learning projects/products in industry.
 Must also be able to bring ideas from conceptualization to productization (putting models in production) using the right tools (e.g. mlflow, kubeflow, tensorflow, etc).
 Strong expertise in data collection, cleaning, preprocessing, and wrangling is a requirement.
 Must be fluent in either R or Python, preferably both, and familiarity with golang is a plus.
