JOB OPPORTUNITIES FOR SAUDI ARABIA

Our client is one of the world's largest fully integrated energy enterprises & one of biggest Oil and Gas Exploration & Production, Refining & Distribution Company in Saudi Arabia. It has domestic and international joint and equity ventures in refining and marketing. The professional rewards are amazing, but so too are the lifestyle and benefits. They can offer professionals from diverse backgrounds and specialties & build a solid, secure future – not to mention extensive international exposure and the opportunity to see your ideas become reality. Work at the forefront of the industry and see how your career evolves with invested time and effort. It's a chance to make a huge impact both on the local economy and on a global scale. **They now urgently seek to hire the below professionals:**

ELECTRICAL DESIGN ENGINEER

JRE25196

- Bachelor's Degree in Electrical Engineering. A higher degree, i.e. Master of Engineering or PhD degree is preferable.
- **Must have a minimum 15 years of experience** in the oil and gas industry, with at least 10 years as senior electrical design engineer.
- Must have engineering working knowledge of various industrial and technical standards related to the oil and gas industry, including NEC, IEC, API and other codes and industrial practices.
- Have an extensive experience in design and operation of large and complex industrial plants, preferable for oil and gas separation plants.
- Should have an experience in electrical design and operation of electrical equipment including power generation, transmission and distribution, power system design and operation, basic protection systems and networks from 480V to 34.5kV.
- Have an experience obtained by working in large international engineering companies that excel in the areas of engineering and design of oil and gas facilities will be preferable. Teamworking and safe working culture are essential skills required for this position.
