Commissioning Specialists

Degree in Mechanical or Chemical Engineering with 25 years' experience

Role/Responsibilities

- Significant supervisory experience in the pre- Commissioning and Commissioning of process unit/systems in the downstream oil and gas facilities, including Utility units, Hydro-processing units, Sulphur Recovery with associated units, Hydrogen plants and Distillation units.
- Ability to pass company's COBRA test as well as Simulator testing for the assigned unit. Experience in supporting the full start-up of Refinery units
- Excellent interpersonal and leadership skills with the ability to mentor Bahraini operations personnel during the Commissioning process.
- High proficiency in English, both written and verbal. Strong teamwork skills and highly effective communications and PC skills.
- Write and/or review and correct the Commissioning procedures for assigned units. Participate and/or lead Mechanical Completion, pre- Commissioning and PSSR walkdowns to ensure the unit is ready to move into Commissioning phase.
- Validate that pre-Commissioning has been completed satisfactorily to allow for incident free Commissioning.
- Represent Company during loop, DCS, PLC, complex loop, and functional testing (as required).
- Ensure safe and incident free execution of the assigned units' Commissioning procedures.
- Assist the SIMOPS coordinators on requirements for the assigned unit, including by ensuring any other competing activity (construction punch work, pre-Commissioning or start up) are safe to do in parallel with Commissioning or are otherwise stopped while the Commissioning activity proceeds. Such assistance shall also include writing permits and signing off as 'Facility Owner' for the unit.

Interested candidates meeting the above, can mail their updated CVs, recent photo and supporting documents to jobs@talentrio.com
