- Bachelor's degree in civil engineering.
- Up to 19 years of cumulative experience in a relevant field (Master's degree)
- Up to 20 years of cumulative experience in a relevant field (Bachelor's degree)
- The Senior Maintenance Engineering Expert is responsible for leading and directing team and the contractors working within a specified area/ zone.
- The role will monitor the area operations, management and on-going maintenance activities and services provided and ensuring all commercial, quality and safety standards are adhered to, in a timely and accurate manner.
- Assist in the development of the Department's Annual Business Plan, as well as the Section's Performance Objectives and ensure the alignment of activities.
- Embed asset management related change due to Catchment Zone Framework, driving standardisation and process compliance.

- Develop Assets Affairs asset management policy, strategy and standards to support Framework Contractors to develop AM Plans accordingly.
- Provide and utilise appropriate financial and risk-based frameworks to drive asset management decision making and ensure delivery of the required service performance.
- Oversee the development of policy and strategy for asset information and core asset systems such as SCADA, Work Management, EAMS, investment prioritization and deterioration tools.

CONSTRUCTION ENGINEER EXPERT JRE25928

- Bachelor's Degree in Civil Engineering or other construction-related area
- Up to 19 years of cumulative experience in a relevant field (Master's degree)
- Up to 20 years of cumulative experience in a relevant field (Bachelor's degree)
- The Construction Engineering Expert 1 is responsible for the development and implementation of Building Information Modeling (BIM) and Digital Engineering execution plans, project setup, model production, coordination and help establish digital delivery specific workflows for collaboration and data exchange
- Extensive experience in an AEC (Architecture, Engineering and Construction) role
- Familiarity with the modelling process in BIM.
- Excellent IT skills.
- Great verbal and written communication skills.
- Extensive knowledge of quality and document management processes.

ENVIRONMENT ENGINEER EXPERT JRE25927

- Bachelor's Degree Environmental Science / Engineering, Sustainability, Biology, or Chemistry or other physical or biological sciences
- Up to 15 years of cumulative experience in a relevant field (Master's degree)
- Up to 15 years of cumulative experience in a relevant field (Bachelor's degree)
- The environmental expert is responsible to support Assets Affairs' environmental health and sustainability efforts, by monitoring the impact of AA Operations on the environment, identifying environmental issues, and recommending solutions, in line with Ashgha's Corporate Environmental Policy
- In-depth knowledge about current environmental laws and regulations and potential regulatory changes
- A prior hands-on knowledge coordinating complex projects / regulatory action is also useful.
- It is also vital that they undertake initial and annual refresher training in hazardous waste management (RCRA), have an understanding of ISO 14001 and experience in auditing of requirements

ITS ENGINEERING EXPERT 1 JRE25925

- Bachelor's degree or higher-level qualification in Engineering in a relevant subject
- Preferably Chartered membership of relevant professional body (e.g. CEng, MICE, MIStructE, or MCIBIT)
- 20 years' experience in Roads / Highways operation and maintenance, ideally within the public sector
- The ITS Engineering Expert 1 is responsible to monitor and support the Road Management Systems (RMS) necessary to ensure secure and reliable 24/7 communications
- Knowledge and experience in international Quality Road works best practice and how it is delivered in an Organisation preferred
- Knowledge and experience in change management / business transformation
- Knowledge and experience in contract management
- Knowledge and experience in risk and value management techniques preferred
- Knowledge and experience of Quality, Health and Safety, and Environment policies, procedures and regulations preferred

SENIOR ROAD ENGINEER JRE25924

- Bachelor degree in Civil Engineering
- Up to 11 years of cumulative experience in a relevant field (Master's degree)
- Up to 12 years of cumulative experience in a relevant field (Bachelor's degree)
- Solid experience in pavement and geotechnical engineering demonstrated by experience of pavement design, investigation and research
- Knowledge and experience in the principles and limitations of geotechnical ground condition, and structural pavement analysis for flexible pavements
- Knowledge and experience of Construction techniques and practices for new construction and maintenance works, including recycling
- Sound knowledge and understanding of pavement design principles (preferred)
- Sound knowledge and understanding of earthworks and pavement materials (Concrete, Asphalt and Hydraulically Bound Materials)
- Experience in preparation of contract documents
- Knowledge and understanding of Pavement Life Cycle Cost analysis and pavement management systems.
- Knowledge and Experience in Pavement Management System Software (dTIMS) and Microsoft Office Packages
