DIRECT HIRING | JOB OPPORTUNITIES FOR SAUDI ARABIA

FACE TO FACE CLIENT INTERVIEW | ON 2ND WEEK OF FEBRUARY, 2023

Our client is one of the world's largest fully integrated energy enterprises and one of the biggest Oil and Gas Exploration & Production, Refining & Distribution Company in GCC. They now urgently seek to hire the below professionals in their Pay roll

FIELD COMPLIANCE COORD JRE26463

- Bachelors degree in BS degree in engineering, safety engineering, industrial hygiene, or environmental science, or in a related field from a recognized and approved program. An advanced degree is preferred.
- Minimum twelve (12) years experience related to heavy construction safety, preferably in on / offshore oil / gas construction industry, petrochemical construction industry, or in construction project management.
- Must have demonstrated knowledge of delivering hands on health, safety and environmental training.
- Must also have ability to assist with developing, implementing, and coordinating comprehensive health and safety programs.
- Good communication skills, both verbal and written (training / presentations / report writing).
- Participate in teams and / or committees.
- Strong PC skills in Microsoft Office (Word, Excel and PowerPoint).
- Skilled in the standards, concepts, practices, and procedures within the health, safety and environmental fields.
- Ability to work at all levels within an organization and the ability to work in a diverse work group is necessary.

SCHEDULING ENGINEER JRE26464

- B.S. in Chemical Engineering and a higher degree is preferred.
- Overall Experience Fifteen (15) years of experience in the refining and the petrochemical industries with a specialty in C4 Chain, such that the incumbent is clearly recognized as an expert in this field.
- five (5) years of field experience including construction, pre-commissioning, commissioning, startup, and operation.
- Excellent English communication skills (verbal and written) and no second language is required.
- Must have Engineering Design & Construction phase experience with a thorough knowledge of engineering practices and economic principles in the applicable International Codes, Standards and Specifications.

- Dynamic attitude towards project improvements and savings, PMP Certification is desirable but not mandatory.
- Flexible to work in multinational teams and mobilize to different locations including remote areas as needed.

COST ENGINEER JRE26458

- Bachelor's degree in Engineering from a recognized university;
- Minimum of 15 years cost engineering experience in oil and gas, petrochemical, refinery projects or facilities, with at least ten years in managing project budgets, cost tracking, forecasting; and financial reporting with a Broad, multi-discipline knowledge and experience of cost engineering for Oil and Gas projects.
- A certification from Professional Organization is highly recommended.

CONTRACT ADVISOR JRE26466

- B.S. in LAW / contracts management and a higher degree is preferred.
- Overall Experience Fifteen (15) years of specialized contracting experience in design, consultancy, Joint Ventures, and construction contracts/agreements related to refining and the petrochemical industries, such that the incumbent is clearly recognized as an expert in this field.
- Excellent English communication skills (verbal and written) and no second language is required.
- Must have expert understanding of contract administration principle and best practices.
- Dynamic attitude towards process improvements
- Flexible to work in multinational teams and mobilize to different locations including remote areas as needed.
